

MANUFACTURING QUALITY, LINKED TO DESIGN.

Stop managing
quality in
spreadsheets,
emails, and paper.

HQA 360 connects your quality planning, inspections, and reporting directly to the original 2D drawing or 3D model, so teams move faster with fewer errors, less interpretation and cleaner deliverables.

Real speed gains for quality teams:

- ✓ Balloon & extract GD&T data in **2 minutes instead of 2 hours**
- ✓ Reduce part planning time up to 80%
- ✓ Cut report production time up to 50%
- ✓ Complete a quality inspection project in **1 day instead of 2 weeks**
- ✓ 10x faster FAIs & automated PPAP

AI-POWERED

PLAN	INSPECT	REPORT	COLLABORATE
2D Automatic Ballooning (GD&T)	Automated Inspection Results	FAI & Lot-Inspection Reports	2D & 3D MBD Collaboration
3D MBD Automatic Ballooning (PMI to BoC)	Real-Time SPC Monitoring & Alerts	PPAP Submissions	FAI & PPAP Exchange
Inspection Planning (In-Process & Final)	NCR & Issue Management	Material & Process Certs	Real-Time Supplier NCRs
Sample Planning (AQL & SPC)	Tool & Gage Management	Digital Workflows & Traceability	Supplier Audits & Scorecards

One platform from first inspection through final delivery.
